

(b) Multiyear contracting is a flexible contract method applicable to a wide range of acquisitions. The extent to which cancellation terms are used in multiyear contracts will depend on the unique circumstances of each contract. Accordingly, for multiyear contracts, the agency head may authorize modification of the requirements of this subpart and the clause at 52.217-2, Cancellation Under Multiyear Contracts.

(c) Agency funding of multiyear contracts shall conform to the policies in OMB Circulars A-11 (Preparation and Submission of Budget Estimates) and A-34 (Instructions on Budget Execution) and other applicable guidance regarding the funding of multiyear contracts. As provided by that guidance, the funds obligated for multiyear contracts must be sufficient to cover any potential cancellation and/or termination costs; and multiyear contracts for the acquisition of fixed assets should be fully funded or funded in stages that are economically or programmatically viable.

(d) The termination for convenience procedure may apply to any Government contract, including multiyear contracts. As contrasted with cancellation, termination can be effected at any time during the life of the contract (cancellation is effected between fiscal years) and can be for the total quantity or partial quantity (where as cancellation must be for all subsequent fiscal years' quantities).

[61 FR 39204, July 26, 1996, as amended at 67 FR 13054, Mar. 20, 2002; 67 FR 43514, June 27, 2002]

17.105 Policy.

17.105-1 Uses.

(a) Except for DoD, NASA, and the Coast Guard, the contracting officer may enter into a multiyear contract if the head of the contracting activity determines that—

(1) The need for the supplies or services is reasonably firm and continuing over the period of the contract; and

(2) A multiyear contract will serve the best interests of the United States by encouraging full and open competition or promoting economy in administration, performance, and operation of the agency's programs.

(b) For DoD, NASA, and the Coast Guard, the head of the agency may enter into a multiyear contract for supplies if—

(1) The use of such a contract will result in substantial savings of the total estimated costs of carrying out the program through annual contracts;

(2) The minimum need to be purchased is expected to remain substantially unchanged during the contemplated contract period in terms of production rate, procurement rate, and total quantities;

(3) There is a stable design for the supplies to be acquired, and the technical risks associated with such supplies are not excessive;

(4) There is a reasonable expectation that, throughout the contemplated contract period, the head of the agency will request funding for the contract at a level to avoid contract cancellation; and

(5) The estimates of both the cost of the contract and the cost avoidance through the use of a multiyear contract are realistic.

(c) The multiyear contracting method may be used for the acquisition of supplies or services.

(d) If funds are not appropriated to support the succeeding years' requirements, the agency must cancel the contract.

17.105-2 Objectives.

Use of multiyear contracting is encouraged to take advantage of one or more of the following:

(a) Lower costs.

(b) Enhancement of standardization.

(c) Reduction of administrative burden in the placement and administration of contracts.

(d) Substantial continuity of production or performance, thus avoiding annual startup costs, preproduction testing costs, make-ready expenses, and phaseout costs.

(e) Stabilization of contractor work forces.

(f) Avoidance of the need for establishing quality control techniques and procedures for a new contractor each year.

(g) Broadening the competitive base with opportunity for participation by firms not otherwise willing or able to
